

Briscoe Protective Systems Inc. Expands Into Westchester County

[Briscoe Protective Systems Inc.](#) is proud to announce that the company is expanding into Westchester County. The expansion falls in line with the company's goal to enhance its business outside of Long Island and the five boroughs of New York City.

In the beginning of 2014, the company entered into a multimillion-dollar credit facility and banking agreement with Suffolk County National Bank, in order to acquire other fire and security alarm companies. Although it took a few months to get the increased line of credit because Briscoe is considered a "small business," rather than a Fortune 500 company, Bob Williams, President, Briscoe Protective Systems Inc., says he is confident that his company has the capability to grow by 20% by integrating newly acquired companies into its existing operations. "We have many customers in the Long Island and New York City areas, such as nonprofit agencies, with locations in Westchester, so we felt that expanding to Westchester was a logical addition to our marketing area," says Williams.

Briscoe provides factory-trained technicians with NICET certification, in-service training, software support, preventative maintenance inspections, computerized equipment, engineering and drafting, code compliance and more. Briscoe has locations in Long Island, the five boroughs of New York City and Westchester, New York.
