

Still kosher after all these years

From the Generalissimo Francisco Franco is Still Dead Department comes this news flash: Ben's Kosher Delicatessen, Restaurant & Caterers serves kosher food.

Yes, an iconic kosher chain that's so kosher it actually has "kosher" in its name issued a press release recently announcing that it's food is indeed ... well, kosher.

Actually, the restaurant chain issued the release specifically to "dismiss rumors about retracting its kosher certification." This is good news, since "Ben's Formerly Kosher Delicatessen" doesn't have quite the same ring.
